SUMMARY

As a computer science student with hands-on experience in full-stack development and UI/UX design, I bring a solid foundation in building and optimizing web platforms. My internship experience at Mount-Skill allowed me to work on real-world projects, where I developed server-side functionality using Node.js and Express.js, managed databases with MongoDB, and contributed to frontend design and debugging. My proficiency with the MERN stack, coupled with my skills in RESTful API design, database management, and Agile methodologies, make me a strong fit for roles that require both technical expertise and a collaborative approach. I am eager to contribute to innovative projects and continue growing as a software developer.

EXPERIENCE

E-Learning platform
NOVA COMPUTECH

2024 - Present
Addis Ababa

NOVA COMPUTECH is a dynamic and forward-thinking IT solutions provider, specializing in a diverse range of technology services that cater to businesses and individuals alike. Also delivering cutting-edge web development, app development, networking solutions, security camera installations, and reliable web hosting services.
